International Address | +8619867712076 | ExpressBusinessBran@icloud.com | <https://www.linkedin.com/in/pernabrannon/> | <https://github.com/PernaBrannon>

SUMMARY

Computer Science graduate from Rutgers University–Newark with a Mathematics minor and hands-on experience building web applications, database systems, API integrations, and cloud-hosted infrastructure. Strong foundation in Python, SQL, Linux, PostgreSQL, and web technologies. Experienced in translating business requirements into technical solutions and using AI-assisted development tools to build and iterate on applications. Seeking an entry-level role in systems, software, data, or technical operations.

TECHNICAL SKILLS

- **Languages:**Python, SQL, JavaScript
- **Databases:**PostgreSQL, Supabase
- **Web:**HTML, CSS, JavaScript, REST APIs
- **Infrastructure:**Linux, Vercel, Cloudflare, DNS
- **Development:**Git, GitHub, Authentication, API Integration, Debugging, Zoho APIs

TECHNICAL PROJECTS

Munin Global — Business Technology Platform | 2026–Present

- Designed and developed a web platform for an international recruitment and education business using PostgreSQL and Supabase.
- Built customer-facing workflows connecting web forms to backend databases and developed an internal employee portal for workflow management.
- Integrated third-party APIs to support automated email and business processes, ensuring seamless data flow.
- Implemented authentication and access-control workflows for internal application security.
- Configured cloud deployment, DNS, environment variables, and external service integrations for production-ready environments.
- Used AI-assisted development tools to accelerate implementation while directing architecture, testing, and troubleshooting.

Senior Software Engineering Project — Android App (Full-Stack & Data Layer Development) | 2024

- Developed Lab Meal Prep (NYC Startup) to solve custom delivery requirements, utilizing RESTful backend endpoints supporting authentication and product management alongside SQL-based data storage.
- Overcame online payment security by implementing Paypal API.
- Led a 3-person development team to build ~70% of a delivery app MVP in 2 months.

EXPERIENCE

QianCheng Kindergarten| Shenzhen, China *ESL Teacher* | 2024–Present

- Plan and manage daily instructional programs while independently managing competing priorities and deadlines.
- Design and execute multi-week projects requiring structured planning, problem-solving, and adaptation.
- Communicate complex information clearly to students, parents, and international colleagues.
- Maintain detailed records, documentation, schedules, and progress reports in a fast-paced environment.

EDUCATION

Rutgers University–Newark| Newark, NJ *Bachelor of Science in Computer Science, Minor in Mathematics* | 2024

- **Relevant Coursework:** Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering, Computer Architecture, Discrete Mathematics, Calculus.

ADDITIONAL

- **Work Authorization:** U.S. Citizen – Authorized to work in the United States without sponsorship.
- **Certifications:**TEFL Certified.
- **Languages:** English (Native) Mandarin (A2)
